

OUR SERVICES

Additions

Cutting Edge Carpentry and Renovations can design single and second story room additions, such as master bedroom suites, family rooms and lofts. These can include any custom features you desire, such as: vaulted ceilings, fireplaces, built in entertainment centers and specialty lighting.

Basement Renovations

A basement remodelling project can be a terrific way to take an existing unused space and convert it into an extra bedroom, a children's play area, a home theatre and more. It takes some creativity and a lot of hard work to get a basement from a dank and dark space to a bright and cheerful family room or entertainment center.

Bathroom Renovations

Cutting Edge Carpentry and Renovations understands that your bathroom remodelling project is an important investment. We offer tailored full service and custom design/build remodelling solutions. Whether you require a complete start-to-finish design build or already have the plans, we can help you achieve your bathroom remodelling dreams.

Kitchen Renovations

With a newly remodelled kitchen, you will find great pleasure and a better quality of living from your most used room. Cutting Edge Carpentry and Renovations will make remodelling your kitchen easy and make the project run smooth and quick. We take pride in each kitchen remodel project to get it done right and in a timely manner.

Flooring

We will help you decide what the best product is for you, and install it beautifully. With the extensive availability of different patterns, finishes and styles, you can be confident that the right choice will be made.

Tiling

Installation of Ceramic and Porcelain Tiles can create an inviting atmosphere for your home as we consider your floor plans, color schemes, decor and lighting, we will show you an array of samples to choose from. You will be delighted with the finished product.

Trim Work

Trim work is both functional and decorative in your home. Although it gives a room distinctive style and detail, it also serves a purpose. Trim work hides the joints between walls and floors, ceilings, doors, and windows. Many different patterns and styles of trim work are made from a variety of softwoods and hardwoods to best match the design of your home.

Other Services

We offer a wide range of cost effective solutions to meet your budget without sacrificing the quality of our work. From the first meeting until the last brush stroke of paint, we guarantee that your project will be completed to your specifications, on time and with the highest level of quality.
